HW 28. Graph $f(x) = cos(x)$. Class	Name
1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1		

																					Τ			

Directions: Draw VERY CAREFULLY the graph of y = cos(x) in the above graph. Use the scale 1 box = 0.1 unit. On the x axis, this means that $\pi = 3.14$ boxes. The left-hand border of the graph is x=0. There are 63 columns, so about ¼ of the way into the last box on the right is the number 6.28,or 2π . Plot the x-values in the table below (continue the process started below, so that all angles with reference angle 0, $\pi/6$, $\pi/4$, $\pi/3$, and $\pi/2$ are used.:

Х	0	π/6	π/4	2π/6	π/2								
x(degrees)	0°	30°	45°	60°	90°								
cos(x)													
cos(x) as a decimal
