

Chapter 25: Chance Models in Genetics (optional)

For biology or biochemistry majors, this chapter should be interesting. But we will not cover it at all. Those who wish should just read it on their own.

Section 25.1: Just read.

Problem of interest: A: page 463: 4.

Sections 25.2 through 25.4 are interesting reading.

Chapter Summary: pages 471 and 472: none of these points are important.

Of the review exercises, problem 3 on page 470 is the most interesting.

No homework is assigned from this chapter.
